

PURELY BESPOKE

CUSTOM HOMES

INDIVIDUALITY. QUALITY. PERSONAL SERVICE.

Luxury and individuality doesn't have to cost the earth.

At Premiere Homes, we work through a step by step, consultative process to ensure that each home is designed to suit your requirements. We use our experience to guide you through the process and to take care of things such as the best utilisation of your block and that your home is finished to the highest standard in craftsmanship.

Building a custom home with a boutique builder has many benefits:

- **Personal service:** You will only have to deal with one person throughout the entire project who will guide you through the project, from start to handover
- **Superior site supervision:** Our level of supervision of your new home is far greater than any other with 1/3 of the number of homes to supervise when compared to most builders
- **Exceptional quality,** luxury home finish: Superior site supervision equates to superior quality
- **We care:** We genuinely care about what you want and work hard to ensure that you enjoy the whole process of building your new home.
